Spectral Power Distribution

Remarks:

The rated life is declared based on an enclosed environment (the most severe situation). Extended life up to 40,000 hours is still possible when the lamp is used in more open fixtures. The rated lamp life, rated luminous flux in 90 ° cone, total luminous flux, rated beam angle and rated wattage are equivalent to their nominal values shown on product packaging. There is no measurable output from 180nm to 380nm, so the chart shows only 380nm to 800nm.

Technologies

Dimmable

Being able to adjust your LEDs with wide selection of dimming range from 100% to 10% or 20% for perfect atmosphere and/or scene setting – warm and bright, dim and cozy.

TCH Technology

Using patented Thermal Conductive Highway™ technology and a unique design of ‘ heat drain ’ across the reflector to dissipate heat efficiently from the dual axial LED to prevent deterioration of the chips and other components.
